

ISO 27001 Transition

Description

ISO 27001 Transition: evolving towards better information security management

The transition to the new ISO 27001 Transition standard is crucial for any company seeking to strengthen its information security management system (ISMS). This training helps you understand in-depth the updates and differences between the ISO/IEC 27001:2013 standard and the revised ISO/IEC 27001:2022 version. The goal is to ensure compliance with new cybersecurity and data protection requirements.

Adapt your organization to the requirements of ISO/IEC 27001:2022

The ISO 27001 Transition course guides you through the implementation of the new concepts in the standard. You will learn how to effectively adapt your ISMS to the revisions, especially those regarding the Annex A controls, which are crucial for ensuring information security. By obtaining this certification, you will demonstrate your ability to lead a compliant and secure transition while anticipating cybersecurity risks.

Course Content

Module 1: Introduction to ISO 27001:2022 and comparison to ISO 27001:2013

- Training course objectives and structure
- Standards and regulatory frameworks
- Overview of the changes between ISO 27001:2013 and ISO 27001:2022
