

Design a dream destination with AI (AI-3024)

Description

Discover How to Unleash Your Creativity with AI

In a world where artificial intelligence is transforming the way we work and create, the *AI-3024* training course stands out as a unique opportunity. This immersive program guides you through the process of imagining and designing a dream destination using the powerful features of Microsoft Copilot. You'll learn to harness generative AI to create visuals, engaging content, and even plan unique aspects of a fictional destination.

Designed for beginners and professionals eager to explore the basics of generative AI, this training offers practical, interactive exercises. From defining your idea to personalizing every detail, each step is crafted to awaken your creativity while enhancing your technical skills.

A Training Course for All Profiles

The approach of "Create a Dream Destination with AI" focuses on simplicity and progression. Even without prior knowledge, you'll be supported in discovering, learning, and implementing modern techniques that will enrich your professional or personal projects. Join us and transform your ideas into tangible creations with AI.

Course Content

Module 1: Designing a Dream Destination with Microsoft Copilot

- Define your idea and its context.
- Create a banner image.
- Craft an engaging introduction.
- Define the main features of the destination.
- Plan an attractive and intuitive menu.
- Envision soundscapes and musical ambiances.
- Create personalized content to enhance the experience.

Lab / Exercises

- This course provides you with exclusive access to the official Microsoft lab, enabling you to practice your skills in a professional environment.
