

ISO 27001 Lead Implementer

Description

Manage the Implementation of ISO 27001

The ISO 27001 Lead Implementer training provides you with comprehensive expertise to effectively plan, deploy, and manage an Information Security Management System (ISMS). Through this structured program, designed to meet the requirements of ISO 27001:2022, you will learn to ensure the security of your organization's data while complying with the latest regulatory frameworks.

Master all stages of ISMS implementation

With a practical and detailed approach, you will be guided through the different phases: from the initial analysis of your existing system to the preparation for the certification audit. This training covers all essential aspects, including risk management, security measures design, as well as continuous monitoring and improvement. Become a key player in protecting your organization's sensitive information.

Course Content
