

New Swiss Data Protection Act (nLPD)

Description

Master the requirements of the new Swiss data protection law

With the new Swiss data protection law (nLPD), managing personal data has become a crucial issue for all companies operating in Switzerland. This training offers a comprehensive overview of the regulations to understand and apply the new rules on data protection. Through concrete examples and practical cases, you will learn how to anticipate risks and ensure your organization's compliance with new legal standards. It's an opportunity for professionals to master data governance mechanisms and ensure the security of sensitive information in their company.

Why take this data protection training?

Data protection is not just a legal obligation; it is a strategic issue for modern businesses. This training is designed to provide you with the tools and knowledge necessary to ensure full compliance with the nLPD. Whether you work in IT, legal, or HR, this course will enhance your skills and ensure optimal management of personal data in an ever-changing environment.
