SAFe® 6.0 Scrum Master

Description

The SAFe® Scrum Master course equips attendees to coach Agile teams to deliver business value at scale. The course teaches you the tactical skills needed to be an effective Scrum Master in a SAFe organization. It also gives you the guidance and tools necessary for working in remote environments with distributed teams. This training prepares you for the "SAFe® SSM" exam included in the course price.

Course Content

- Scrum, especially in the context of SAFe
- Role, responsibilities and characteristics of the Scrum Master
- Interaction between team and program level, so-called Agile Release Train (ART)
- Transparency about the progress of an iteration
- Basic psychological knowledge and effective methods for coaching agile teams

Documentation

- Digital courseware included

Exam

- Voucher examen included
