

Scrum Master and Product Owner (PSMPO)

Description

Become Agile with Our Scrum Master and Product Owner Training

Accelerate your learning and build strong connections between the **Scrum Master** and **Product Owner** roles with our intensive 3-day training program. By combining the essential objectives of two 2-day courses, this training optimizes your time and efficiency. You will master product management and Agile leadership without redundancy, allowing you to quickly acquire the necessary skills.

Becoming a professional Product Owner goes beyond simply managing the Product Backlog. This course will teach you how to maximize the value of your products and adopt both a strategic and operational vision. For Scrum Masters, you will discover advanced techniques to improve your team's efficiency and effectiveness, along with leadership and behavioral change tools.

This bundle consists of discussions and practical exercises based on real cases and includes the following courses, which you can also choose individually:

- [Scrum Master](#)
- [Scrum Product Owner](#)
